IMPERATORE Rally & Racing " Jack de Keijzer "

Since 1989, I have been working within the arena of professional rally sport. It has been my pleasure to work with many international and national rally drivers and teams within the world rally championship, as well as within National events all over the world.

After accumulating more than 20 years experience in rallying, my clients benefit, from not only my extensive Technical and Logistical knowledge but also my worldwide contacts within this field.

I founded "IMPERATORE Rally & Racing" in January 2010 and I offer specialized consulting within all areas of the motorsport world.
